Your Weekly Horoscope

ARIES (March 20 – April 19)

You may find yourself in a stalemate with others at mid-week. Breaking the obstacles may require more tact and diplomacy on your part, even if that feels uncomfortable for you. Lucky numbers: 5, 26, 30, 33, 35, 15.

TAURUS (April 20 – May 20)

Taurus individuals often rely most on what they can see in the "real world." At week's end, however, you may be able to achieve success by following your intuition. Lucky numbers: 4, 6, 13, 31, 40, 3.

GEMINI (May 21 – June 20)

Your mind may feel a bit overwhelmed right now by information from your dreams and intuition. Consider storing these insights away and reviewing them again in a few weeks. Lucky numbers: 6, 16, 17, 34, 37, 2.

CANCER (June 21 – July 22)

Insights from your unconscious may be coming fast and furious right now. This phase will pass in a couple of weeks, when you will be able to start fully processing them. Lucky numbers: 7, 24, 35, 37, 38, 5.

LEO (July 23 – Aug. 22)

There is a strong potential for a beneficial outcome early in the week. However, it requires that you take into account the needs of others who will be affected by it. Lucky numbers: 5, 10, 20, 27, 38, 3.

VIRGO (Aug. 23 – Sept. 22)

Your natural attention to precision and detail is heightened this week. Use it to aid others to achieve a goal, but make sure your contribution is recognized in the process. Lucky numbers: 14, 22, 26, 32, 35, 4.

LIBRA (Sept. 23 – Oct. 22)

You may be tempted to use your natural charm and concern for others to maintain harmony in a situation at mid-week. However, don't put your own needs aside to achieve it. Lucky numbers: 1, 6, 12, 18, 40, 12.

SCORPIO (Oct. 23 – Nov. 21)

Your intuition to see the truth in situations is boosted at week's end. Be careful in communicating what you see. Make sure that others are ready to hear you. Lucky numbers: 5, 6, 14, 28, 32, 1.

SAGITTARIUS (Nov. 22 – Dec. 21)

You may be tempted to say whatever pops into your head for the next few weeks. Consider stifling that impulse, unless you are completely sure how it will be received. Lucky numbers: 1, 13, 14, 15, 29, 39.

CAPRICORN (Dec. 22 – Jan. 19)

You may be experiencing glitches right now in communications, travel, equipment failures, etc. If you maintain your usual discipline, you should get through the next few weeks more easily than others. Lucky numbers: 6, 7, 13, 14, 25, 2.

AQUARIUS (Jan. 20 – Feb. 18)

Your romantic relationship may sometimes take a back seat to your spiritual ambitions. For the next few months, however, this area of your life may be in full focus. Lucky numbers: 6, 21, 29, 30, 37, 3.

PISCES (Feb. 19 – March 20)

Others may hold you to a higher standard than usual at the beginning of the week. You may need to focus on a concrete plan to meet their expectations. Lucky numbers: 2, 6, 8, 34, 39, 1.

Lucky numbers this week: This week's odds favor Leo winners with the luckiest number being 27.

Did You Know...

In a cone, please: The first ice cream cone was served at the 1904 World's Fair in St. Louis. Its popularity spread quickly, making summer treats easier to enjoy on the go.

In a blink: The human eye moves on average 80 times per second. We are mostly unaware of how alert and quick our eyes are to respond to things around us.

Lend an arm: Starfish can regenerate lost arms. Some species can even grow an entirely new starfish from a single detached limb.

Whistle peak: Beyond the familiar speaking and singing ranges, the human voice has an upper limit known as the whistle register. It reaches pitches far above typical high notes, creating an airy tone that only a few performers can produce.

Costly orbit: The International Space Station is regarded as the most expensive object humans have constructed. Built through an international partnership, it supports research in orbit and stands as one of our most ambitious scientific projects.

On the Lighter Side

Knock! Knock! Who's there? Freightier. Freightier who? Freightier snakes? I know I am.

What kind of nuts do your feet like? Ca-shoes.

There was an economics professor who rode to class on a business cycle.

A tree climbing competition was created for those who want to limber up.

Doctor: Did you take the temperature?
Nurse: No, is it missing?
